
Avendus Capital advises Capital Float on its USD 50 million fund raise led by Lightrock

Bangalore, September 28, 2021

Capital Float, India's leading Buy-Now-Pay-Later platform, announced today that it has raised USD 50 million in equity funding, led by Lightrock India. Current investors, Sequoia Capital India, Ribbit Capital, and Creation Investments also participated in the round, in addition to new investors, David Velez (Founder of Nubank), Kunal Shah (Founder of Cred), and Amrish Rau (CEO of Pine Labs).

Avendus Capital acted as the exclusive financial advisor to Capital Float on this transaction.

The funds raised will be used to strengthen and scale Capital Float's BNPL platform and expand its partner ecosystem. The company has witnessed rapid growth over the past year, with 2.5 million customers now using its product to finance over INR 2,000 crore of online purchases annually. Capital Float has partnered with leading platforms such as Amazon (powering Amazon Paylater), MakeMyTrip, Unacademy, and BoAt to help consumers finance purchases across e-commerce, D2C brands, travel, edtech and healthcare. It also recently launched a strategic partnership with Razorpay to expand BNPL to over 100,000 merchants across the country.

In addition to offering BNPL at checkout across its merchant partners, the company also operates Walnut, India's most popular personal finance app with over 12 million lifetime downloads. Walnut offers a range of personal finance features such as expense tracking, budgeting, and bill reminders, provides instant small-ticket loans to salaried and self-employed individuals 24x7, and recently launched insurance options on the app as well.

"We are now financing 2 million purchases every month across 14,000 pin codes, while maintaining NPAs below 1.5%. This positions us as the market leader in BNPL in India today", said co-founders **Sashank Rishyasringa and Gaurav Hinduja** in a joint statement. "More importantly, we see an exponential growth opportunity ahead from this point on. By solving for affordability as well as convenience, in a fully-regulated format, we believe that our BNPL approach can responsibly expand access to credit to over 100 million customers who are starting to transact online. We are privileged to have the support of our investors in pursuing this vision and are excited to work in partnership to build a world-class digital financial institution for India."

Saleem Asaria, Partner at Lightrock India, said, "Capital Float has solved the unique triumvirate of customer experience, risk management, and merchant partnerships that lies at the heart of unlocking the BNPL opportunity in India. In addition to its strong technology platform, it has built a sophisticated underwriting and collections capability, along with an ethical lending playbook, that makes the model very compelling. We have also been consistently impressed with the tenacity and execution focus of the team through a full credit cycle. We are excited to work with

them to build a highly scalable, differentiated, and sustainable business that will positively impact the lives of millions of customers in India through digital credit and financial products.”

Pranay Jain, Director, Digital and Technology Investment Banking at Avendus Capital, said, “Credit card under-penetration and the online commerce opportunity in India provides a massive potential for the Buy Now Pay Later (BNPL) model to expand. Capital Float has built India’s only truly native BNPL platform with a unique asset-light financing model, supported by sophisticated risk management. They’ve delivered best-in-class customer adoption and experience on the back of strong execution, a superior product and leading merchant partnerships. We are extremely proud to partner with them in their vision to democratize access to credit.”
